**ASTROLOGICAL PRINCIPLES UNDERLYING EYE DISEASE**

- The luminaries: The Sun and the Moon represent the right eye and the left eye respectively.
- Venus : Venus is the significator for eyes as well as for vision. Unafflicted Venus located in the Lagna gives rise to beautiful eyes and face. Venus associated with Saturn gives rise to small eyes. Venus also represents the lens of the eye.
- The second House/second Lord: The second house is concerned with vision. A strong and powerful 2nd Lord, or a benefic influence on the 2nd house leads to beautiful and healthy eyes. When the 2nd Lord is placed in 6th or 8th or the 12th house, it causes some eye defect.
- The Twelfth house : The 2nd house is particularly indicative of the right eye and the 12th house of the left eye. The Moon in the 12th house damages the left eye. The Sun, which signifies the right eye, located in the 2th house damages the right eye.

**CHART EYE INJURY-**

Rahu the axis and receives the aspects of Mars and the Moon from the 6th house. Venus, however receives the benefic aspect of Jupiter. In the Navamsha, the Moon is in the 8th house aspect- ed by Mars, whereas the Sun is in Rahu Ketu axis aspected by Saturn. Venus is located in the 6th house, and

the 2<sup>nd</sup> house is occupied by Mars. The native ( in chart A) suffered injury to his left eye while he was quite young. This lead to a near total loss of vision and corneal opacity. All the planets and houses that are

concerned with the eyes and vision are afflicted.

The Moon is located in the 6th house with the 6th Lord’as well as Ketu. The Sun is in the 8th house.Venus in the 7th house is aspected by a retrograde Saturn. The second house receives the aspect of the Sun from the 8th house.The 12th house is involved in the Rahu Ketu.

**FOR LOSS OF EYESIGHT-**

The person lost both his eyes in childhood. Here Sun represent- ing eye is situated in the house of eye in an inimical sign and with its enemy Ketu.Sun is 8<sup>th</sup> Lord of the Lagna. 8<sup>th</sup> house is occupied by Rahu and aspected by Sun.Sun is fully aspected by Mars by 4<sup>th</sup> aspect resulting in loss of eyesight.
