

A Study On Unique Disability Identification Card (UDID) To Disabled Person In Coimbatore, Tamil Nadu

*Dr.S.Deepa

* Guest Lecturer, Department of Public Administration, Government Arts College (Autonomous) Coimbatore

ABSTRACT

Unique Disability Identification Number project is a flagship project of Prime Minister Office create a national database for the persons and was launched in September 2016 The national project to convert disability certificate into unique disability identity cards new UDID was launched to ensure that persons with disability able all government benefits irrespective of the domical status UDID card with an 18 digit number was designed to ensure that benefits reach the deserving beneficiaries eliminate the possibility of duplication and allow tracking of benefits director at individual based on the nature of the disability.

Index term: Unique Disability Identification card, Scheme eligibility persons and apply by UDID card.

Introduction

The unique disability identity document is an added identification card for a person with a disability person the UDID card is also known as Swavlamban card the UDID project is initiated by the department of empowerment of persons with disabilities Game set building and integrated system for the insurance of Universal ID and disabilities certificate Two Types of card Permanent card and temporary card All Indian citizens are eligible for UDID card: Having a disability cover under RPWD act 2016 is eligible for the UDID A person with disabilities should have percentage of disability 40 or above. Online details are the with disability across the nation through a centralized web application Online filling and submission of registration application from for disability certificate Universal ID card offline application may also be accepted and subsequently disease right the by agency, Quick assessment process for calculating the percentage of disability by the hospital's Medical College. Disabilities will not need to carry multiple copies of documents and maintained the documents, The UDID card will also capture all the necessary details which can be recorded with the help of reader: The UDID card will be the single document of identification verification of disabled for curing various benefits in the future The UDID ID card will also help in the

streamlining that tracking of the physical and financial progress of beneficiary at all the levels of Hierarchy of implementation from village level block level district level state level and national level: Documents required of UDID Can copy of the recent color photos, Scanned image of signature, Scanned Copy of address proof, Scanned copy of disability certificate.

UDID apply method and eligibility

Fashion with disability parents are relatives will click on registration link to register with UDID web protocol Using credential persons locks into system and click apply online for disability certificate Upload color passport size photos and require documents Submit the data to CMO office and medical authority CMO office medical authority verify data Specialized doctor will assess the disability of PWD and will give opinion on disability: Disabilities mentioned under rapt act 2016 are legally recognized categories of disabilities: Blindness, Low vision, Leprosy cured person, Hearing impairment, Loko motor disability, Intellectual disability Mental illness, Autism spectrum disorder, Cerebel palsy Muscular Dystrophy, Chronic neurological condition, Specific Learning disabilities, Multiple sclerosis, Speech and language disability, Thalassaemia, Hemophila, Sickle Cell disease, Disability including deaf blindness, Acid attack victims, Parkinsons disease, Connection for people with disabilities, Income tax, Travell ADIP scheme, Education, Legal guardian, UDID card benefit: Passion with disability will not need to make multiple copies of documents maintain and carry multiple document as the car will capture all the necessary details which can be decoded with the help of reader. The UDID card will be the single document of identification verification of the disabled for awareing various benefits in future: Data to be capture under UDID, Name middle name surname: Email ID, Date of birth, Age gender, Disability details: Disability percentage, Specify disability type, Select option for disability since Disability area from drop Down.

Login process Services of an enrollment agency

New registration process, Validation process, Process for information processing
Assessment disability, UDID number and card issuance process

Digitization service IT implementation agency, Agency for awareness campaigns, Program management unit, Training Agency, National disability database, State disability data, Data at the centre, Cloud services directory, Access through web service, Access through landing area, Federated data access, Assessing data from internet, Silent future of the disability database, The data will be stored using NIC Cloud Services, State will store verify and maintain and won its disability database over at the national level consolidated view of all the state database will provide a holistic picture of national data on disability, In order to maintain the uniformity of data, The status will have to follow the standards and guidance of the centre while building the database, An audit of the data will be carried out by the centre in order to ensure that the database follows the guidelines correctly, Stay data will be interconnected to a single cloud and the centre a copy of the state database will be maintained possibly through batches updates the database at the centre will be an activate database, The best at the centre will be linked to the other that party database such

as NSAP, The code will be provide analytics business intelligent reporting etc service to all the status as well as the centre, The sunrise data will then be accessible by the centre for all the status and Centre should be able to carry out sensing and dicing of data through NIC cloud analytic, Application Design principles, Technology independent, Interoperability, N Tier Model, Extensibility and scalability, Parameterized application modules, Service Oriented modules, Following are the details sub process of end to end process for issue of UDID cards

Renewal of card

Loss of card all the information generator during the process is sold in the national disability database applicants that already have a disability certificate activation process is conducted in order to check whether any additional information is required if any information is missing in the applicant is promoter to fill up the missing information and then this information is process by the UDID generation In case there is no additional information required application submit the application for UDID card generation This request is then translate to the person which in the turn process the UDID number and card generation process Case of laws of applicant wheel need to place the request to for a new card is lost applicant will need to upload an information report from the police Permission will be sent by person which will verify the report and process it for the Card Gas of loss of called the African will need to place the request for a new card The UDID is last applicant will need to upload an information report from the police Permission will be sent by mail which will verify the report and process it for the issuance of duplicate UDID card Gentle management unit verify the application on the basis of validation of the supporting documents and information Management unit off science date of assessment in the medical camp to the applicant, Online availability of data of person with disability across country, Sensex- 2011 there are 2.68 core person with disabilities in India, Certificate is basis for availing generator benefits, About 50% percentage of persons have been issued disability certificate by the states in the country, With the investment of rights of person with disabilities act 2016 the types of disabilities have been increased from expressing 7 to 21 disabilities

The principal area of in intervention under the policy are prevention yearly dedication and intervention programs of rehabilitation education of person with disabilities employment creation of barrier free environment social production Research and sports recreation and culture activities, Person with disabilities constitute a valuable even resources for the country and that a majority of such person can lead a better quality or life if they have equal opportunities and effective message in recognition of this fact the government as devices several schemes in order to provide benefits to the disabled people beside in order to NCO equal opportunities and rice to disabled people the Government of India as passed several laws in last 3 decades such as the mental health act 1987 the national trust act 1999.National database for the person with disability is essential in order to encourage and uniformity in the system it will be a Foundation milestone for tracking the physical and financial progress of benefit delivery at all levels of Hierarchy of

implementation from village level block level district level state level and national level Stake holders, Person with Disability.

Department implementing schemes

Central government, Medical authorities and Hospital, State government, Nodal, departments in rural areas. Banks, National Informatics centre, Common service centers, enrollment agency, Legislative bodies, Mechanism for policy implementation, Ministry of Labor, Ministry of Home Affairs, Ministry of Health and Family Welfare, Ministry of Rural Development, Ministry of Urban Development, Ministry of youth affairs and sports, Ministry of Panchayat Raj, Ministry of women and child development, Challengers in offering service and schemes to the disabled, In order to meet the requirements of specific disabilities Government of India as established following 7 National Institutes in specific disability under the department

National Institute for the visually handicapped Dehradun Ali Hamar Jung National Institute for the hearing handicapped Mumbai Ali yavar jung national institute for the hearing handicapped Mumbai. National institute for the orthopedically handicapped kolkatta, Swami Vivekananda National Institute for the application training and Research Cuttack Pt Deendaya Upadhayaya national institute for the physically handicapped Delhi, National Institute for the Mentally handicapped Secunderabad, National Institute for the empowerment of person with multiple disabilities Chennai, Chandlers faced by the disabled person, Rerated Number of visits Disabilities have to make several numbers are received for availing 1 benefits, Tracking As per current system there is no criterion for tracking the people who are opening the facilities under various schemes service due to which some people I will multiple facilities in regular interval of time Data base Currently there is no Central database for person with disabilities.

Number of certificate issuing authority

The number of disability certificate using authorities is not a decade as compared to number of physically challenged persons in the country which affects in using the disability certificate currently only 22.30% of disable person or disability certificate Lack of Awareness ,Most of the disable person were not able to avail the facilities offered under various schemes by the government for them due to lack of awareness Planning and too lack of Information and disable person there is a challenge to plan any scheme benefits for the beneficiary as per the requirement.

OBJECTIVES

- To Measure the level of Awareness UDID in Male and Female
- To Find out the extent of Utilization of UDID in Male and Female

HYPOTHESIS

On the basis of above objectives following hypothesis were formulated.

- There is no significant difference between the median score on Awareness of UDID Male and Female
- There is no significant difference between the mean score on Utilization of UDID Male and Female

RESEARCH METHODOLOGY

Research Design is the structure of any scientific work it gives direction and systematizes the research. An exploratory research will be conducted to measure the Awareness and Utilization UDID in Male and Female in Coimbatore is universe for this research study. Overall Sample Size is 80 structured interviews Schedule were used as tools to aid the collection of the data for the study.

ANALYSIS OF DATA

This chapter presents the statistical analysis has been divided into two sections namely introduction and existing UDID in Male and Female of the respondents, The study analyzed as on between the median source of UDID Awareness and Utilization level inter between to the Male and Female By Chi-square Test.

RESPONDENTS PROFILE

To Assess the Respondents profile, the study Disability Person had identified variables like age of Respondents, family type, Qualification, working Type of risk complication of Respondents, UDID Using in Male and Female, UDID Non Using in Male and Female, How did get Awareness and Utilization Schemes of Respondent.

Figure -1&2

UDID Awareness level and Utilization level of Male and Female in Coimbatore District Tamil Nadu total sample size: 80

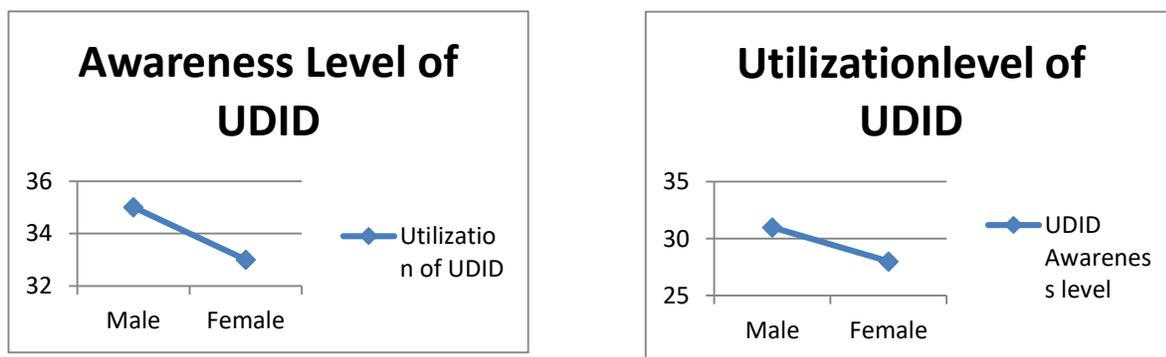

Table-1

Chi-square -Value of UDID Awareness level of Male and Female

Group	N	Awareness level	Non Awareness level	Chi-square Value	p-value
Male	40	35	05	1.3853	.239204
Female	40	31	09		

The chi-square statistic is 1.3853. The p-value is .239204. The result is not significant at $p < .05$.

Table-2

Chi-square -Value of UDID Utilization level of Male and Female

Group	N	Utilization level	Non Utilization level	Chi-square Value	p-value
Male	40	31	05	0.5811	.445876
Female	40	28	09		

The chi-square statistic is 0.5811. The p-value is .445876. The result is not significant at $p < .05$.

CONCLUSION

Through this study we can understand the fact there is much difference between UDID Awareness level and Utilization level of male and female.

According to the factories

- 1) The UDID Awareness level of Male is More than comparing and Female in The result is not significant
- 2) The UDID Utilization level of Male is More than comparing and Female in The result is not significant

SUGGESTION

- To give the awareness of government schemes.
- Increase job reservation percentage of 5% to 10% government posting.
- Private Job must be maintain >15% all the company and other institutes.
- Education fees free to be give the all courses in private and government colleges.
- To be increase and maintain the socio economic level by the schemes.
