ASBTRACT

The vision of Viksit Bharat underscores the need for the improvement & inclusive education system to change India into developed India. This paper shows the strategic pathways needed for addressing the challenges of 21st Century. The main moto in this transformation is the implementation of the New Education Policy 2020. The study emphasizes the Integration of technology to improve the method of teaching and learning process and promoting digital literacy & to empower learners across diverse socio economics background. It also examines the importance of skill development. The paper indicates for teacher training programs aimed at modernizing pedagogical approaches & fastening critical thinking. This paper outlines a roadmap for leveraging education as a tool to achieve the goals of Viksit Bharat.

Key words: Viksit Bharat, Skill development, NEP digital literacy.

INTRODUCTION

India's aspiration to become a developed nation by coinciding with its centenary of independence is rooted in the vision of Viksit Bharat. Achieving this vision demands a robust education system for the globalized & technology - driven era. Education is the foundation of socio economic growth, innovation and development making it a key driver for realizing this ambition.

NEP marks a watershed moment in educational reforms. It designs to overhaul the education system. One of the critical pillars of this transformation is inclusivity. NEP emphasizes equitable access to quality education for all, particularly for marginalized communities, addressing long-standing disparities in education across gender, region & socio-economic strata.

Another vital focus is on employability. The evolving demands of the global job market call for a curriculum that integrates future-ready skills.

Strategic Pathways for Transformation

Achieving the vision of Viskit Bharat necessitates a strategic transformation of India's education system. There are some following pathways:-

1) Digital Literacy & technology Integration

- a) Promote e-learning platforms
- b) Expand high speed Internet

c) Leverage artificial intelligence (AI)

2) Skill development & Vocational Training

- a) Introduce Vocational Courses
- b) Future Ready Curriculum

c) Industry Partnerships

3) Strengthening Training Programs

- a) Professional Development
- b) Digital Tools & AI

4) Inclusive Education

- a) Target Marginalized Communities
- b) Gender Inclusive Environment

5) Multidisciplinary & Holistic Learning

- a) Implement NEP 2020
 - b) Experiential Learning
- #### 6) Higher Education Reform
- a) Global Partnership

- b) Financial Autonomy

- c) Increased R&D Investment

CONCLUSION

Transforming India's education system is a critical step toward achieving the vision of Viksit Bharat. India must address several long-standing challenges that have hindered the development of a strong, inclusive and globally competitive education system. These challenges include disparities in educational access. To overcome obstacles India must implement innovative reforms in alignment with the NEP 2020, which emphasizes inclusivity, equity, and the integration of technology into education. Regular professional development programs and the use of AI to track teacher's performance can improve the quality of education. With the NEP 2020 at the forefront, India can create more flexible, multidisciplinary & inclusive education system for preparing students.

In conclusion, transforming India's education system is pivotal to achieving Viksit Bharat.
